

APPENDIX C-3

SUPPLEMENTARY ADDRESS ENTRIES

1. The Supplementary Address for support of U.S. Forces documents is a two-part field to indicate:

- a. Service (pos. 45) or FEDSTRIP agency (pos. 45-46).
- b. Address (pos. 46-50).

Agency:

Service						
	45	46	47	48	49	50
Address						

2. The entry in pos. 45 (Service) or pos. 45-46 (FEDSTRIP agency) will always be the appropriate character that indicates the Service or agency. Specific alphabetic characters are prescribed for normal requisitioning and shipping and for MAP and contractor's use.

3. Entries in pos. 46-50 (MILSTRIP address) or pos. 47-50 (FEDSTRIP address) may be alpha, numeric, or a combination of both that indicates a specific account number or address code for the purpose of receiving materiel or receiving documentation. The account number or address code will be established and disseminated by each of the Services, DLA, and the General Services Administration. Each account or address code so established will contain addresses in detail to permit shipping and billing materiel and for mailing of documentation. (See DoD 4000.25-D.)

4. When the originator of the document desires to utilize these field positions (46-50) for other data, the entry will not be significant to other than the originator. In these cases, an alpha Y will be entered in pos. 45. The alpha Y indicates that the contents of the field (pos. 46-50) are not significant to the system and will not be disseminated, but will be perpetuated and appear on subsequent documents generated therefrom.

5. If the supplementary address is not required for billing, shipping, or other identification, the field should be left blank or zero filled.

6. On all MAP Grant Aid Transactions, the ODMA Record Control Number will be entered in pos. 45-50 as follows: An alpha Y will be entered in pos. 45. Field pos. 46 will indicate the last numeric digit of the Program Year in which the requisitioned item was approved and funded. Field pos. 47-50 will indicate the four-digit program line item number of the requisitioned item (alpha, numeric, or alphanumeric).

FIELD POSITIONS	45	46	47	48	49	50	
ENTRY	Y	8	A	1	0	0	

Y - Nonsignificant
8 - Program Year 1978
A100 - 1978 Program Line
Number A100

7. On all Foreign Military Sales (FMS) transactions the entries will be as follows: Position 45 will contain the MAP Service Code of the customer country's requisitioning Service. Field pos. 46 will contain the applicable Country Option Code A, Y, or Z, or Code X to indicate options do not apply. Field pos. 47 will contain a code to designate the recipient of shipments and documentation. This entry will be the FMS Country Representative/Freight Forwarder Code (CR/FF) or Code X or W to indicate that a CR/FF is not applicable. (See DoD 4000.25-8-M.) Field pos. 48-50 will contain the specific FMS case designator consisting of three alphanumeric characters.
